VOLLMER of America Announces new Business Partnership with Burton Saw & Supply

VOLLMER of America has just announced a new business partnership with Burton Saw & Supply to better serve our customers and grow within the saw blade maintenance market in the saw mill industry.

VOLLMER, the global market leader for grinding and erosion machines in woodworking and metalworking industries, has just announced a new business partnership with Burton Saw & Supply. Burton Saw & Supply – along with its affiliates Simonds International, Cut Technologies and BGR Saws – is the leading producer and marketer of cutting tools and related equipment for the primary wood fiber industry in North America. Due to Burton’s large presence within the saw mill industry, VOLLMER of America has now established a close partnership to respond quickly to the market needs with proven and reliable solutions.

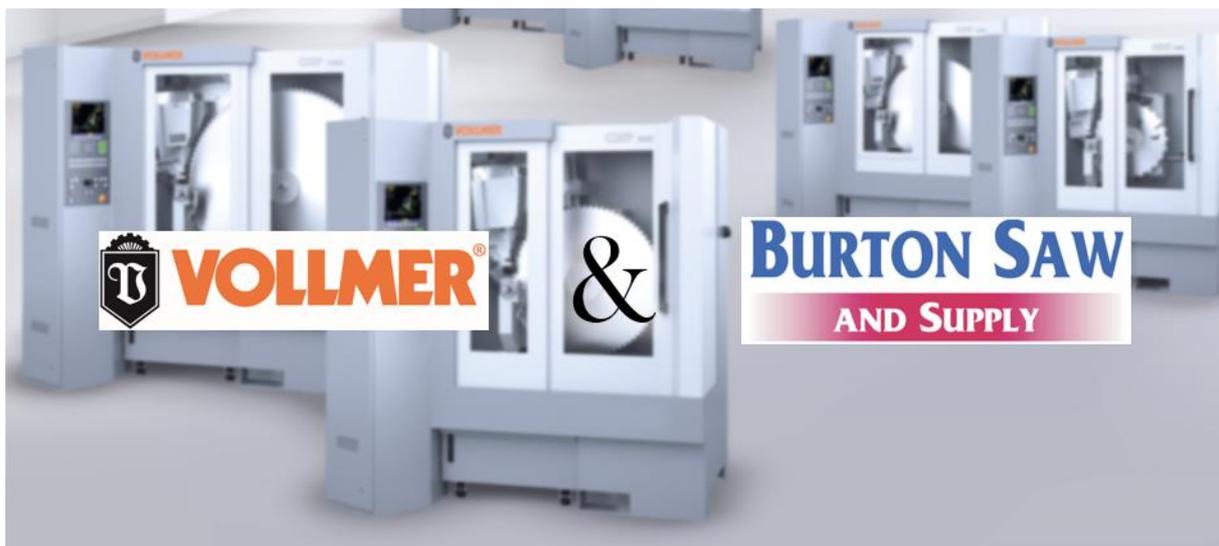

While VOLLMER machines as well as spare part requests within the saw mill industry, will now be quoted and sold through Burton Saw & Supply, all installations, training, service and warranty work will still be handled by VOLLMER of America.

“We believe that the partnership with Burton Saw & Supply will be very beneficial for all parties involved, not only in regards to streamlining communication channels, but most importantly for our customers as well who will now get to have a more frequent contact base and improved support system throughout the US and Canada”, states Shannon Fox, North American Sales Manager at VOLLMER of America.

With more than 800 employees worldwide, the VOLLMER Group which was founded in 1909, has established itself as the world market leader in grinding and erosion equipment. The recent launch of the new VLaser 270 has made VOLLMER a full-line supplier of tool machining. The North American subsidiary currently counts 26 employees, 19 of which are based out of the Pittsburgh office. The other 7 are strategically located throughout the US to cover more ground in sales & service.

About the VOLLMER Group

With its comprehensive range of machinery, the VOLLMER Group – which has sites in Germany, Austria, Great Britain, France, Italy, Poland, Spain, Sweden, the USA, Brazil, Japan, China, South Korea, India and Russia – enjoys global success as a tool machining specialist in terms of both production and service. The technological leader's range of products includes the most advanced grinding, eroding and machining tools for rotary tools and circular saws in the woodworking and metalworking industries, as well as for metal-cutting band saws. In offering this, VOLLMER relies heavily on the company's tradition and its strengths: Local contacts for efficient communication channels, quick decisions and rapid action by a family-run company. The VOLLMER Group currently employs approximately 800 workers worldwide, with around 580 of these at the main headquarters in Biberach alone, including more than 75 trainees. The company invests around eight to ten per cent of its turnover in the research and development of new technologies and products. As a provider of technology and services, the VOLLMER Group is a reliable partner to its customers.
